Madam / Sir,

regarding the proposed increase in Cil in this borough.
I have some questions to ask

(1) What proportion or amount of the income from cil goes to Capita or its employees or to "Re" ie the organisation of "Capita- with-Barnet" ?

(2) What influence does Capita or Re play in deciding where the income from Cil is going to be spent?

(3) How much will be diverted to "Specialists" services run by Capita?

(4) As officers (especially planning officers) are viewed by many residents as "corrupt". So how does Barnet Council propose to demonstrate the honesty of its staff to the general public ?

I have firsthand experience of deceitful practice by officers connected to planning matters, also ignoring essential legal issues that led me and many others to doubt the wisdom of trusting my money to anyone who works for Barnet Council

I am just one of a vast multitude who do not trust ANY employee of Barnet council

Unless I hear of any trustworthy response, I shall oppose any increase in ANY payment to Bsrnet Council

Dr Oliver Natelson
