

# Welcome

**This public exhibition is designed to provide you with more information on Barnet Council's proposal to re-develop the Abbots Depot Site on Oakleigh Road South.**

Barnet Council is in discussions to acquire the Abbots Depot Site as a base for its fleet of household waste and recycling collection vehicles.

The existing base in Mill Hill needs to be relocated and this new site would help keep a cap on the cost of refuse collection in Barnet by reducing the number of long distance journeys that have to be taken by the refuse and recycling collection fleet.

It is important to the Council that you share your views on the proposal. Feedback will be taken on board and will help to shape the final proposal for the site before a planning application is submitted later in the year.

# Thank you

**Your feedback on Barnet Council's proposals for the Abbots Depot Site is important and will help to shape the plans that are eventually submitted.**

There are feedback forms on the table next to this sign. It would be helpful if you could take the time to fill one out now and place it in the feedback box. Alternatively, there are freepost envelopes on the table, so you can take one away with you to fill out later. Finally, there is an online feedback form which can be found on the project webpage: [www.barnet.gov.uk/abbotsdepot](http://www.barnet.gov.uk/abbotsdepot)

All materials from this exhibition are available on the project webpage so that people who are unable to attend can see all the information and still provide feedback.

Barnet Council will continue to share information with local residents and businesses throughout the pre-planning process. You can also get in touch with the project team on 0800 157 7346 or at [abbotsdepot@communityrelations.co.uk](mailto:abbotsdepot@communityrelations.co.uk)

# What happens next?

Feedback received during this pre-application consultation will be considered and used to help shape the final design for the site and planning application. People wishing to submit feedback have until **Monday 13 April 2015** to provide their thoughts as part of this pre-application stage.

Following this, the aim is to submit a planning application to Barnet Council's Planning Committee in summer 2015.

Should planning permission be granted, development will commence in autumn 2015, with the new Depot becoming fully operational around December 2016.

Throughout the development period, Barnet Council will continue to communicate with local residents and businesses to ensure that on-site activity causes minimal disturbance.

If you have any questions about the Abbots Depot project, you can get in touch with the project team via **[abbotsdepot@communityrelations.co.uk](mailto:abbotsdepot@communityrelations.co.uk)** or on **0800 157 7346**.

You can also view information on the project web page: **[abbotsdepot@communityrelations.co.uk](http://abbotsdepot@communityrelations.co.uk)**
