

Free rapid COVID-19 testing for everyone with no symptoms

1 in 3 people with COVID-19 do not experience any symptoms and may be spreading the virus without knowing.

Twice weekly Community rapid COVID-19 testing, alongside COVID-19 vaccine rollout, is the main way in which we will be able to reopen society and control the spread of the virus.

You can get a free rapid COVID-19 test from:

- A local community test site
- A collection point (home test kits)
- Your employer, if they offer testing for employees
- On-site at schools and colleges
- Online ordering

For more information about how to book a test, visit www.barnet.gov.uk/RapidCommunityTesting
